SightSpan Inc. is Pleased to Announce Entry into a Strategic Expansion Agreement with NominoData LLC.

SightSpan Inc., a leading International Consulting firm focused on Risk Management, Corporate Governance and Business Process Improvement, and NominoData, an identity, compliance and risk management technology solutions company, have entered into a strategic agreement to expand their multi-year partnership. Under this agreement, Al Macdonald will join SightSpan as Chief Technology Officer while SightSpan becomes the exclusive agent for NominoData offerings.

Al Macdonald, Chief Technology Officer of SightSpan and founder of NominoData commented, “This is a great opportunity for both firms to cement further our working relationship. The synergy of products and services makes the combination of SightSpan and NominoData services a very exciting and a strong player in the industry. By taking the role of Chief Technical Officer at SightSpan it demonstrates the closeness of the relationship between NominoData and SightSpan. Personally I am very excited to be working with SightSpan and helping develop systems and services that will take the organization to the next level”

Patricia Potts, SightSpan Chief Strategy Officer commented, “We are very excited to have Al Macdonald join and lead our teams as Chief Technology Officer of SightSpan. He is an expert in the risk management technology field and a natural leader. We look forward to a long prosperous relationship together.”

John Wash, President and CEO of SightSpan believes this business expansion will dramatically expand the level of value the firm brings to their global clients and commented “ The team of technical and compliance data specialist from NominoData and Al MacDonald will add immediate value to the SightSpan organization and to our clients.”
